ACTIVITY 2

Technological developments affect all areas of our lives. Let’s see what happened in the music field.

2.1

Which one of the two is a Phonograph?

☐ a. ☐ b.

How does a gramophone differ from a phonograph? If you do not know, ask your grandparents or elders in the house.

Ans:
This is an LP Disc record. How many revolutions per minute does it play?

Ans:
Radios were very popular during your grandparents' time. The museum has many of these. Draw any one you like.

Ans:
What is this? What is used for?

Ans:

How do you think you could see and hear at the same time?

Ans:
Have you seen this or used it? How old were you?

Ans:

Where do you think music is stored? How many songs can you listen to?

ACTIVITY 3
DRAW A GRAMOPHONE

Ans:
ACTIVITY 4

This is the logo of a very famous company. It is said that the artist Francis Barraud painted Nipper (his dog) in Liverpool. Barraud noticed how Nipper often curiously examined the phonograph (the cylinder - record player) that they had at home. The little dog was puzzled by where the voice came from, and Barraud found it very amusing and painted him. The image was the foundation of the logo for many gramophone and recording brands like HMV, EMI, RCA and Victor Talking Machine Company.

A logo is a symbol made up of text and images that identifies a business. A good logo shows what a company does and what the brand values. A good logo consists of a type, image, colour and context that all come together to define a brand.
Draw your logo for a music company.
